

## Section 5 - Property Tax Administration

**Table 5.1** identifies subdivisions offering discounts for property tax payments received before the statewide due date in September.

Eleven counties and Baltimore City grant a percentage discount for the payment of property taxes prior to a particular date. The amount of discount ranges from 0.5% to 1%, depending on how early the payment is made.

Conversely, each subdivision levies a percentage penalty and/or interest rate for late property tax payments. After October 1st, monthly interest charges vary. Penalties are imposed in a variety of ways including monthly surcharges or flat rates after a certain date.

**Table 5.2** shows each subdivision's penalty and/or interest charged for late payment of property taxes.

**Table 5.3** details each county's Homestead Property Tax Credit percentage. This is a statutory limit on the amount an assessment increase may affect a taxpayer's tax burden. Since 1977, State law provided that owner-occupied dwellings were not taxed on annual assessment increases that exceed 15%. While the Homestead Credit is not technically a cap on assessment increases, the provision of a property tax credit against large assessment increases functions much the same as a cap.

During the 1990 and 1991 Sessions of the General Assembly, significant changes were made to the Homestead Property Tax Credit Program. For the first time the credit was applied to the State property tax to limit taxable assessment increases for homeowners to 10% annually. Additionally, each county was mandated to adopt a local ordinance or resolution specifying a local percentage of 0% to 10% for purposes of local property taxation.

**Table 5.3** lists the Homestead Credit Percentages set by each county for FY 2012 through FY 2017. The Homestead Credit percentage selected by each county is expressed as a percentage increase from the prior year's assessment. If a municipality disagrees with the Homestead Credit Percentage specified by its county, municipal officials may set their own limit between 0% and 10%. If a municipality takes no action, then the county percentage will apply to assessments used to compute municipal taxes.

Local percentages (county and municipal) remain in effect until changed by local action. County governments may, in the future, change their Homestead Credit percentage, but must do so by November 15th preceding the year of the proposed change. Municipalities may change the percentage before November 25th of the preceding year.
